

**RESOLUTION AMENDING THE DISTRICT'S RULES
GOVERNING WATER, WASTEWATER AND DRAINAGE SERVICES**

STATE OF TEXAS §
 §
COUNTIES OF WILLIAMSON §
AND TRAVIS

BE IT RESOLVED BY THE BOARD OF DIRECTORS OF WILLIAMSON-TRAVIS
COUNTIES MUNICIPAL UTILITY DISTRICT NO. 1 THAT:

Paragraph 10.4 of the District's Rules Governing Water, Wastewater and Drainage
Service is amended to read as follows:

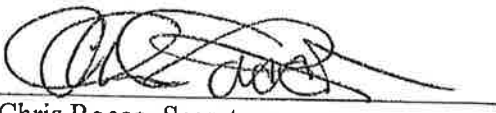

"Each water and wastewater customer will be responsible for the maintenance of the
Water Service Line and Sewer Service Line from the point of connection to the District's
Systems to the buildings or premises served. The District is responsible for all sewer line
blockages up to its side of the wye and including the wye, and the customer is responsible for all
sewer line blockages on the customer's side of the wye. All Sewer Service Lines must be
maintained in a manner that prevents the infiltration of water or exfiltration of wastewater from
the line. After the District's inspection of any facility the District will provide a written report to
the owner of the property. The District's Manager shall determine the condition of such facility
and the impact the current condition of the facility may have on infiltration of water or
exfiltration of wastewater and report those findings to the Board of Directors. If the facility is
not properly maintained or repaired the District may, but is not obligated to, maintain or repair
the facility and charge the expense to the owners of the property. A failure to maintain or repair
facilities, or to pay the reasonable expenses incurred by the District in performing maintenance
or repair, may subject the owner to the penalties set forth in Section XIV, and to termination of
utility service to the property. The District will forward all customer claims based on a sewer
line blockage to its insurance company for a determination of liability, if any."

ADOPTED THIS 18th day of April, 2012.
