ANNUAL FILING AFFIDAVIT

THE STATE OF TEXAS

COUNTY OF TRAVIS

I, Catherine Franke
(Name of Duly Authorized District Representative)

of the WILLIAMSON-TRAVIS COUNTIES MUNICIPAL UTILITY DISTRICT NO. 1

hereby swear, or affirm, that the District named above has reviewed and approved at a meeting of the Board of Directors of the District on the 16 day of January, 2019, its annual audit report for the fiscal year ended September 30, 2018 and that copies of the annual audit report have been filed in the District office, located at 12912 Hill Country Blvd., Suite F-232 Austin, Texas 78738.

The annual filing affidavit and the attached copy of the audit report are being submitted to the Texas Commission on Environmental Quality in satisfaction of all annual filing requirements within Section 49.194 of the Texas Water Code and to the Texas Comptroller of Public Accounts in satisfaction of the annual filing requirements of Section 140.008 of the Texas Local Government Code.

Date: January 16, 2019. By: Catherine Franke
(Signature of District Representative)

Catherine Franke, Board President
(Typed Name and Title of above District Representative)

Sworn to and subscribed to before me this 16 day of January, 2019.

Lisa N. Adkins
(Signature of Notary)

Lisa N. Adkins
(Printed Name of Notary)

My Commission Expires On: April 23, 2022
Notary Public in and for the State of Texas.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Williamson-Travis Counties Municipal Utility District No. 1:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Williamson-Travis Counties Municipal Utility District No. 1 (the "District"), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2018, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information required by the Texas Commission on Environmental Quality (the "TCEQ") and other supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplemental information required by the TCEQ listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information required by the TCEQ listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other supplemental information listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

WILLIAMSON-TRAVIS COUNTIES MUNICIPAL UTILITY DISTRICT NO. 1

Management's Discussion and Analysis For the Year Ended September 30, 2018

As management of the Williamson-Travis Counties Municipal Utility District No. 1 (the "District"), we provide readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended September 30, 2018. We encourage readers to consider the information presented here in conjunction with the District's financial statements that follow.

For purposes of Governmental Accounting Standards Board ("GASB") Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "Total Governmental Funds" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Position and the Statement of Activities.

Financial Highlights

- The assets of the District at September 30, 2018 were approximately \$15.8 million and exceeded its liabilities by approximately \$13.1 million.
- Total net position increased by approximately \$474,000 for the year ended September 30, 2018. Of total net position at September 30, 2018, approximately \$2.3 million is considered unrestricted and may be used to meet the District's ongoing obligations.
- New investment in capital assets during the fiscal year totaled approximately \$417,000.

Overview of the Basic Financial Statements

The District's reporting is comprised of two parts:

- *Management's Discussion and Analysis*
- *Basic Financial Statements*
 - *Statement of Net Position and Governmental Funds Balance Sheet*
 - *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*
 - *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund*
 - *Notes to Basic Financial Statements*

Other supplementary information is also included.

The *Basic Financial Statements* are designed to provide readers with an overview of the District's finances, in a manner similar to a private sector business.

The *Statement of Net Position and Governmental Funds Balance Sheet* presents information on all the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the net difference reported as net position. The statement of net position can be found on page 11 of the report which includes a column (titled "Total Governmental Funds") that represents a balance sheet prepared using the modified accrual basis of accounting. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the District's net position will indicate financial health.

The *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances* represents information showing how the District's net position changed during the most recent fiscal year which includes a column (titled "Total Governmental Funds") that derives the change in fund balances resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

The *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund* presents a comparison statement between the District's adopted budget to its actual results.

The *Notes to Basic Financial Statements* provide additional information that is essential to a full understanding of the information presented in the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods and some expenses are resulting from cash flows from prior periods. The increase or decrease in net position may serve as an indicator of the effect of the District's current year operations on its financial position. The *Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances* can be found on page 12 of this report.

Financial Analysis

The *Statement of Net Position and Governmental Funds Balance Sheet* - As noted earlier, net position may serve over time as a useful indicator of the District's financial position. In the case of the District, assets exceeded liabilities by approximately \$13.1 million at the close of the most recent fiscal year.

A large portion of the District's net position reflects its investment in capital assets (water system, sewer system, drainage system, buildings and park facilities) less any related debt used to acquire those assets that is still outstanding. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be liquidated to pay these liabilities. The resource to pay the liability is the future income stream from property taxes levied on the property owners in the District. Management feels that the resources that property taxes provide are a certainty (through actual collection or liquidation of tax payer property in the event of default) and the true *Net Investment in Capital Assets* should reflect the net present value of a future property tax revenue stream.

The District has total liquid assets available amounting to approximately \$3.3 million. Of this, approximately \$304,000 was specifically set aside for paying debt. Since the bonded indebtedness is approximately \$2.0 million, future property taxes levied in the District will be used to pay the debt.

Schedules required by the Texas Commission on Environmental Quality (the "TCEQ") and other supplemental information are presented immediately following the *Notes to Basic Financial Statements*.

Comparative Financial Statements

Statement of Net Position

	Governmental Activities		
	2018	2017	% Change
Current assets	\$ 3,345,197	\$ 3,275,934	2.1%
Capital assets	12,405,769	12,625,779	(1.7%)
Total assets	\$ 15,750,966	\$ 15,901,713	(0.9%)
Current liabilities	\$ 1,419,485	\$ 1,349,786	5.2%
Long-term liabilities	1,273,978	1,968,637	(35.3%)
Total liabilities	\$ 2,693,463	\$ 3,318,423	(18.8%)
Net investment in capital assets	\$ 10,441,791	\$ 9,997,142	4.4%
Restricted	319,433	305,556	4.5%
Unrestricted	2,296,279	2,280,592	0.7%
Total net position	\$ 13,057,503	\$ 12,583,290	3.8%

The District's total assets were approximately \$15.8 million as of September 30, 2018. Of this amount, approximately \$12.4 million is accounted for by capital assets. The District had outstanding liabilities of approximately \$2.7 million of which approximately \$2.0 million represents bonds payable.

The District's revenue sources are utility service fees, property taxes, and fire protection fees. Water revenue is driven very much by the weather - more rainfall means less water is used for landscaping. In response to the continuing pressure on the available water supplies in Central Texas, the District has adopted a tiered water pricing policy model. In addition, the District has a drought restriction policy in place. The District's records show that the water system is 86.7% accountable, which is favorable.

Wastewater and the District's other revenue sources are not weather dependent. The District charges a base service fee, and collects revenue from water and wastewater customers.

Operating and maintenance taxes are also levied. The taxes are a function of assessed property values 21 months prior to the fiscal year end, and tax rates imposed by the District. The District's property tax assessed value on January 1, 2017 was approximately \$532.6 million compared to approximately \$494.6 million on January 1, 2016. The tax rate is set after reviewing operations and maintenance requirements, interest and sinking fund requirements, and proposed water and wastewater rates.

The existence of fire protection by a funded fire department provides the District residents a savings on their homeowners insurance to offset the charge for the fire protection. The District does not benefit financially from the arrangement since the District acts as a conduit only. In past years, the District absorbed a portion of this cost using other sources of funds. During the 2018 fiscal year, those other sources of funds were not available and the full cost of the service was billed to District residents. The contract for fire protection has normal annual cost of living escalators.

Sources of Revenue
For the Fiscal Year Ended September 30, 2018

Statement of Activities

	Governmental Activities		
	2018	2017	% Change
Taxes	\$ 2,350,257	\$ 2,364,637	(0.6%)
Water, wastewater and garbage	1,806,706	1,783,010	1.3%
Fire protection fees	540,066	530,624	1.8%
Other	73,536	60,373	21.9%
Total revenues	\$ 4,770,565	\$ 4,738,644	0.7%
Water, wastewater and garbage	1,554,324	1,482,910	4.8%
Contracted services	652,109	605,342	7.7%
Fire protection	540,066	530,624	1.8%
Repairs and maintenance	563,909	512,850	10.0%
Security	59,182	54,529	8.5%
Directors' fees and expenses	46,321	51,187	(9.5%)
Utilities	13,351	11,661	14.5%
Other	140,692	128,211	9.7%
Debt service (including amortization)	89,910	120,329	(25.3%)
Depreciation	636,488	657,495	(3.2%)
Total expenses	4,296,352	4,155,138	3.4%
Change in net position	474,213	583,506	(18.7%)
Beginning net position	12,583,290	11,999,784	4.9%
Ending net position	\$ 13,057,503	\$ 12,583,290	3.8%

Total revenues increased by approximately \$32,000 to approximately \$4.8 million for the fiscal year ended September 30, 2018. Water, wastewater and garbage services provided approximately \$1.8 million and property taxes generated approximately \$2.4 million in revenues. Total expenses increased by approximately \$141,000 compared to fiscal year 2017 to approximately \$4.3 million for the fiscal year ended September 30, 2018. Net position increased approximately \$474,000 for the fiscal year ended September 30, 2018 compared to an increase of approximately \$584,000 for the fiscal year ended September 30, 2017.

The District's expenses include:

Maintenance and Repairs: As the District continues to age, maintenance and repairs of the facilities normally cost more and take more time and attention of the consultants and the Board of Directors. To offset the financial effects of this in the past, the District has applied for and received permission from the TCEQ to transfer money to pay for maintenance of items purchased with bond proceeds to the operating account from the Capital Projects Fund. As of September 30, 2018, there are no remaining bond proceeds available for transfer from the Capital Projects Fund to the General Fund, meaning that future repairs and maintenance will be funded through District operations.

Solid Waste Pickup: The District is one of two districts in Texas to contract with one solid waste hauler for the entire district. The contract, which runs through May 1, 2019, can be cancelled by the District with 30 days notice.

Depreciation: Depreciation expense decreased slightly in 2018 due to fewer assets being put into service during 2018 than in 2017. Depreciation expense for the year ended September 30, 2018 totaled approximately \$636,000 compared to approximately \$657,000 for the year ended September 30, 2017, a decrease of 3.2%.

Analysis of Governmental Funds

	2018	2017
Cash equivalents and investments	\$ 2,987,294	\$ 2,912,518
Receivables	357,903	363,416
Interfund receivable	881	2,765
Total assets	\$ 3,346,078	\$ 3,278,699
Accounts payable	\$ 396,627	\$ 383,810
Refundable deposits and other liabilities	326,770	297,932
Interfund payable	881	2,765
Total liabilities	724,278	684,507
Deferred property taxes	50,916	44,771
Deferred inflows of resources	50,916	44,771
Restricted for debt service	303,062	292,625
Assigned fund balance	455,107	477,921
Unassigned	1,812,715	1,778,875
Total fund balances	2,570,884	2,549,421
Total liabilities, deferred inflows of resources, and fund balances	\$ 3,346,078	\$ 3,278,699

In 2018, the District budgeted a decrease in operating fund balance of approximately \$452,000. The operating fund reflected an increase in fund balance of approximately \$11,000, due in large part to lower than budgeted expenses.

The *General Fund* pays for daily operating expenditures. When comparing actual to budget, water and wastewater revenues were higher than budgeted due to growth in the District. Expenditures were approximately \$323,000 less than budget due to contracted services, capital outlay and other expenses. More detailed information about the District's budgetary comparison is presented in the basic financial statements on page 13 of this report.

The *Debt Service Fund* remitted bond principal of \$660,000 and interest of approximately \$97,000. More detailed information about the District's debt is presented in the *Notes to Basic Financial Statements*.

Capital Assets

	2018	2017
Land	\$ 84,052	\$ 84,052
Construction in progress	402,047	44,592
Water, wastewater and drainage	17,513,768	17,513,768
Park and detention facilities	4,394,630	4,335,607
Fences	1,741,657	1,741,657
Capital recovery fees	1,112,422	1,112,422
Subtotal	25,248,576	24,832,098
Accumulated depreciation	(12,842,807)	(12,206,319)
Total	\$ 12,405,769	\$ 12,625,779

More detailed information about the District's capital assets is presented in the *Notes to Basic Financial Statements*.

Long-Term Debt Activity

	2018	2017
Bonds payable	\$ 1,950,000	\$ 2,610,000
Premiums on refunding	13,978	18,637
Total	\$ 1,963,978	\$ 2,628,637

The District owes approximately \$2.0 million to bond holders. During the year, the principal balance was reduced by \$660,000. More detailed information about the District's long-term debt is presented in the *Notes to Basic Financial Statements*.

Currently Known Facts, Decisions, or Conditions

The tax rate has been set at \$0.4079 per \$100 of assessed valuation for tax year 2018 based on taxable valuation of approximately \$583 million. 73% of the estimated property tax collections will fund general operating expenditures and 27% of the estimated property tax collections will be set aside for debt service. The adopted budget for 2018-19 projects a General Fund fund balance decrease of approximately \$429,000.

Requests for Information

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District at 12912 Hill Country Blvd., Suite F-232 Austin, Texas 78738.

WILLIAMSON-TRAVIS COUNTIES MUNICIPAL UTILITY DISTRICT NO. 1

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED SEPTEMBER 30, 2018

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Williamson-Travis Counties Municipal Utility District No. 1 (the "District") was created, organized and established on March 27, 1985, pursuant to the provisions of Chapter 54 of the Texas Water Code.

The reporting entity of the District encompasses those activities and functions over which the District's elected officials exercise significant oversight or control. The District is governed by a five member Board of Directors (the "Board") which has been elected by District residents or appointed by the Board. The District is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board ("GASB") since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. In addition, there are no component units included in the District's reporting entity.

Government-Wide and Fund Financial Statements

For purposes of GASB Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "Total Governmental Funds" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the statement of net position and the statement of activities.

The government-wide financial statements report information on all of the activities of the District. The effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the expenses are offset by program revenues. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the District. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Amounts reported as program revenues include charges to customers or applicants for goods, services, or privileges provided. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Major revenue sources considered susceptible to accrual include interest income. No accrual for property taxes collected within sixty days of year end has been made as such amounts are deemed immaterial; delinquent property taxes at year end are reported as deferred inflows of resources.

The District reports the following major governmental funds:

The General Fund includes financial resources used for general operations. It is a budgeted fund, and any unassigned fund balance is considered resources available for current operations.

The Debt Service Fund includes debt service taxes and other revenues collected to retire bond principal and to pay interest due.

Budgets and Budgetary Accounting

Formal budgetary integration is employed as a management control device for the General Fund. Formal budgetary integration is not employed for the Debt Service Fund. The budget is proposed by the District Manager for the fiscal year commencing the following October 1, and is adopted on the modified accrual basis, which is consistent with generally accepted accounting principles.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

Cash and cash equivalents - The District's cash and cash equivalents are considered to be cash-on-hand and short-term investments with original maturities of three months or less from the date of acquisition.

Investments - Temporary investments throughout the year consisted of investments in an external local government investment pool and certificates of deposit. The external local government investment pool is recognized at amortized cost as permitted by GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The District is entitled to invest any and all of its funds in certificates of deposit, direct debt securities of the United States of America or the State of Texas, certain Federal agency securities and other types of municipal bonds, fully collateralized repurchase agreements, commercial paper and local government investment pools. The District's investment policies and types of investments are governed by Section 2256 of the Government Code ("Public Funds Investment Act"). The District's management believes that it complied with the requirements of the Public Funds Investment Act and the District's investment policies. The District accrues interest on temporary investments based on the terms and effective interest rates of the specific investments.

Accounts Receivable - The District provides for uncollectible accounts receivable using the allowance method of accounting for bad debts. Under this method of accounting, a provision for uncollectible accounts is charged to earnings. The allowance account is increased or decreased based on past collection history and management's evaluation of accounts receivable. All amounts considered uncollectible are charged against the allowance account, and recoveries of previously charged off accounts are added to the allowance. The District believes all accounts were collectible at September 30, 2018.

Capital Assets - Capital assets, which include land, construction in progress, water, wastewater collection and distribution facilities (purchased, constructed, or donated), park and detention facilities, fences, and capital recovery fees are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of at least \$5,000. Such assets are recorded at historical cost if purchased or estimated acquisition value at the date of donation if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Capital assets (other than land and construction in progress) are depreciated using the straight-line method over the following estimated useful lives:

Asset	Years
Water, wastewater collection and distribution facilities	50
Park and detention facilities:	
Park improvements and pavilion	30
District office	30
Office furniture	10
Detention ponds	30
District fences	15
Capital recovery fees	33

Long-Term Debt - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Ad Valorem Property Taxes - Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. The District is prohibited from writing off uncollected real property taxes without specific statutory authority from the Texas Legislature.

Deferred Outflows and Inflows of Resources - The District complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Fund Equity - The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. See Note 9 for additional information on those fund balance classifications.

Fair Value Measurements - The District complies with GASB Statement No. 72, *Fair Value Measurement and Application*, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

- Market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities.
- Cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost).
- Income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Use of Estimates - The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncements

In June 2017, the GASB issued GASB Statement No. 87, *Leases*, effective for fiscal years beginning after December 15, 2019. The objective of GASB Statement No. 87 is to improve accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB Statement No. 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB Statement No. 87, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources. Management is evaluating the effects that the full implementation of GASB Statement No. 87 will have on its financial statements for the year ended September 30, 2021.

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Amounts reported for governmental activities in the statement of net position are different because:

Governmental funds total fund balances	\$ 2,570,884
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	
Capital assets, net of accumulated depreciation	12,405,769
Deferred tax revenue is not available to pay for current-period expenditures and, therefore, is deferred in the funds.	50,916
The following liabilities are not due and payable in the current period and, therefore, are not reported in the funds:	
Bonds payable, including premiums	(1,963,978)
Bond interest payable	(6,088)
Total net position	<u>\$ 13,057,503</u>

Amounts reported for governmental activities in the statement of activities are different because:

Excess of revenues over expenditures	\$ 21,463
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Capital outlay	416,478
Depreciation expense	(636,488)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Change in deferred tax revenue	6,145
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
Repayment of bond principal	660,000
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Change in interest payable	1,956
Amortization of bond premiums	4,659
Change in net position	<u>\$ 474,213</u>

3. CASH AND CASH EQUIVALENTS AND TEMPORARY INVESTMENTS

The District's deposits are required to be secured in the manner provided by law for the security of the funds. At September 30, 2018, such deposits were entirely covered by Federal Deposit Insurance Corporation ("FDIC") insurance or secured by collateral pledged by the depository.

The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy. The District's deposits and investments are invested pursuant to the investment policy, which is approved annually by the Board. The primary objectives of the District's investment strategy, in order of priority, are safety, liquidity, and yield.

Investments held at September 30, 2018 consisted of the following:

Type	Fair Value	Weighted Average Maturity (Days)	Standard & Poor's Rating
Public funds investment pool-			
TexPool	\$ 1,854,454	1	AAAm
Certificates of deposit	<u>606,193</u>	188	Various
Total	<u>\$ 2,460,647</u>		

At September 30, 2018, the District had investments in one external local governmental investment pool, Texas Local Governmental Investment Pool (“TexPool”), and certificates of deposit with various banking institutions.

Although TexPool is not registered with the SEC as an investment company, they operate in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940. These investments are stated at amortized cost in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

TexPool is overseen by the Texas State Comptroller of Public Accounts, who is the sole officer, director and shareholder of the Texas Treasury Safekeeping Trust Company which is authorized to operate TexPool. TexPool also has an advisory board to advise on TexPool’s investment policy. This board is made up equally of participants and nonparticipants who do not have a business relationship with TexPool. Federated Investors manages daily operations of TexPool under a contract with the Comptroller and is the investment manager for the pool. TexPool’s investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

In accordance with GASB Statement No. 79, the external local government investment pool does not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. This pool does not impose any liquidity fees or redemption gates.

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized agencies are designed to give an indication of credit risk. At September 30, 2018, investments were included in an external local governmental investment pool and certificates of deposit with ratings from Standard and Poor’s in compliance with the District’s investment policy.

Interest Rate Risk - The District considers the holdings in the external local governmental investment pool to have a one day weighted average maturity due to the fact that the share position can usually be redeemed each day at the discretion of the shareholders, unless there has been a significant change in value. Certificates of deposit held by the District have set interest rates.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributable to the magnitude of investments in a single issuer. Information regarding investments in any one issuer that represents five percent or more of the District’s total investments must be disclosed under GASB Statement No. 40, excluding investments issued or explicitly guaranteed by the U.S. government.

4. INTERFUND RECEIVABLES AND PAYABLES

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds.” The composition of interfund balances as of September 30, 2018 is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Debt Service	<u>\$ 881</u>

5. PROPERTY TAXES

The Texas Water Code authorizes the District to levy a tax each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located within its boundaries. Assessed values are established annually by the Williamson and Travis Counties Appraisal Districts. District property tax revenues are recognized when levied to the extent that they are collected in the current year. The uncollected balance is reported as deferred revenue. Taxes receivable are due January 1 and are delinquent if received after January 31 and are subject to penalty and interest charges.

In September 2017, the District levied a combined tax rate of \$0.4316 per \$100 of assessed valuation to finance operating expenditures and debt service requirements. The maintenance tax rate and the debt service tax rate were \$0.2916 and \$0.14, respectively. The total 2017 tax levy was \$2,346,089 based on a taxable valuation as of January 1, 2017 of \$532,595,407.

6. CAPITAL ASSETS

Capital assets activity for the year ended September 30, 2018 was as follows:

	Balance September 30, 2017	Additions	Retirements and Transfers	Balance September 30, 2018
Capital assets not being depreciated:				
Land	\$ 84,052	\$ -	\$ -	\$ 84,052
Construction in progress	44,592	416,478	(59,023)	402,047
Total capital assets not being depreciated	<u>128,644</u>	<u>416,478</u>	<u>(59,023)</u>	<u>486,099</u>
Capital assets being depreciated:				
Water, wastewater collection and distribution facilities	17,513,768	-	-	17,513,768
Park and detention facilities	4,335,607	-	59,023	4,394,630
District fences	1,741,657	-	-	1,741,657
Capital recovery fees	1,112,422	-	-	1,112,422
Total capital assets being depreciated	<u>24,703,454</u>	<u>-</u>	<u>59,023</u>	<u>24,762,477</u>
Less accumulated depreciation for:				
Water, wastewater collection and distribution facilities	(8,529,172)	(366,394)	-	(8,895,566)
Park and detention facilities	(1,227,253)	(183,591)	-	(1,410,844)
District fences	(1,558,754)	(49,818)	-	(1,608,572)
Capital recovery fees	(891,140)	(36,685)	-	(927,825)
Total accumulated depreciation	<u>(12,206,319)</u>	<u>(636,488)</u>	<u>-</u>	<u>(12,842,807)</u>
Total capital assets being depreciated, net	<u>12,497,135</u>	<u>(636,488)</u>	<u>59,023</u>	<u>11,919,670</u>
Capital assets, net	<u>\$ 12,625,779</u>	<u>\$ (220,010)</u>	<u>\$ -</u>	<u>\$ 12,405,769</u>

7. LONG-TERM DEBT

The following is a summary of changes in long-term debt for the year ended September 30, 2018:

	Balance September 30, 2017	Additions/ Refundings	Retirements	Balance September 30, 2018
Series 2003	\$ 985,000	\$ -	\$ (145,000)	\$ 840,000
Series 2005	965,000	-	(280,000)	685,000
Series 2011	660,000	-	(235,000)	425,000
General obligation bonds	2,610,000	-	(660,000)	1,950,000
Premiums on refunding bonds	18,637	-	(4,659)	13,978
Total	<u>\$ 2,628,637</u>	<u>\$ -</u>	<u>\$ (664,659)</u>	<u>\$ 1,963,978</u>

At September 30, 2018, bonds payable were comprised of the following individual issues:

Unlimited Tax and Revenue Bonds

\$2,070,000 - 2003 Combination Unlimited Tax and Revenue Bonds payable serially through the year 2023 at interest rates which range from 3.0% to 4.75%.

Refunding Bonds

\$4,320,000 - 2005 Unlimited Tax and Revenue Refunding Bonds payable serially through the year 2021 at interest rates which range from 2.5% to 4.1%.

\$2,310,000 - 2011 Unlimited Tax and Revenue Refunding Bonds payable serially through the year 2021 at interest rates which range from 2.0% to 3.0%.

Debt service requirements to maturity for District's bonds are summarized as follows:

Fiscal Year	Principal	Interest	Total Requirement
2019	\$ 690,000	\$ 73,055	\$ 763,055
2020	555,000	48,330	603,330
2021	345,000	27,270	372,270
2022	175,000	14,400	189,400
2023	185,000	7,400	192,400
Total	<u>\$ 1,950,000</u>	<u>\$ 170,455</u>	<u>\$ 2,120,455</u>

The bonds are payable from the proceeds of ad valorem taxes, and are secured by a pledge of the net revenues of the District's water, wastewater and drainage system. At September 30, 2018, unlimited tax bonds of \$5,813,671 were authorized by the District, but unissued.

8. COMMITMENTS AND CONTINGENCIES

The District has entered into agreements with the City of Cedar Park, Texas for wholesale water and wastewater services. The City of Cedar Park, Texas is sole supplier of these services to the District. The current wholesale wastewater services agreement has an original 30-year term which will expire January 12, 2020. Two additional 30-year terms for the wholesale wastewater services agreement are available with advance notification by the District. A new agreement was signed on September 22, 2015, which will expire on February 1, 2045.

9. FUND BALANCES

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned - For the General Fund, the Board may appropriate amounts that are to be used for a specific purpose. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

Unassigned - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

The detail of the fund balances is included in the Governmental Funds Balance Sheet on page 11. Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board has the authority to assign fund balance for a specific purpose. In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

10. RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained coverage from commercial insurance companies and the Texas Municipal League Intergovernmental Risk Pool ("TML Pool") to effectively manage its risk. All risk management activities are accounted for in the General Fund. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered.

The TML Pool was established by various political subdivisions in Texas to provide self-insurance for its members and to obtain lower costs for insurance. TML Pool members pay annual contributions to obtain the insurance. Annual contribution rates are determined by the TML Pool board. Rates are estimated to include all claims expected to occur during the policy including claims incurred but not reported. The TML Pool has established claims reserves for each of the types of insurance offered. Although the TML Pool is a self-insured risk pool, members are not contingently liable for claims filed above the amount of the fixed annual contributions. If losses incurred are significantly higher than actuarially estimated, the TML Pool adjusts the contribution rate for subsequent years. Members may receive returns of contributions if actual results are more favorable than estimated.

WILLIAMSON-TRAVIS COUNTIES MUNICIPAL UTILITY DISTRICT NO. 1

**INDEX OF SUPPLEMENTAL SCHEDULES REQUIRED BY
TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

WILLIAMSON-TRAVIS COUNTIES MUNICIPAL UTILITY DISTRICT NO. 1

TSI-0 NOTES REQUIRED BY THE WATER DISTRICT ACCOUNTING MANUAL YEAR ENDED SEPTEMBER 30, 2018

The notes which follow are not necessarily required for fair presentation of the audited basic financial statements of the District which are contained in the preceding section of this report. They are presented in conformity with requirements of the Texas Commission on Environmental Quality to assure disclosure of specifically required facts.

(A) Creation of District

See Note 1 to basic financial statements.

(B) Contingent Liabilities

See Note 8 to basic financial statements.

(C) Pension Coverage

Not applicable.

(D) Pledge of Revenues

See Note 7 to basic financial statements.

(E) Compliance with Debt Service Requirements

The provisions of the bond resolutions as summarized in Note 7 to the basic financial statements relating to debt service requirements have been met.

(F) Redemption of Bonds

See Note 7 to basic financial statements.

WILLIAMSON-TRAVIS COUNTIES MUNICIPAL UTILITY DISTRICT NO. 1

**TSI-1 SCHEDULE OF SERVICES AND RATES
YEAR ENDED SEPTEMBER 30, 2018**

1. Services Provided by the District:

- | | | |
|--|---|--|
| <input checked="" type="checkbox"/> Retail Water | <input type="checkbox"/> Wholesale Water | <input checked="" type="checkbox"/> Drainage |
| <input checked="" type="checkbox"/> Retail Wastewater | <input type="checkbox"/> Wholesale Wastewater | <input type="checkbox"/> Irrigation |
| <input checked="" type="checkbox"/> Parks/Recreation | <input checked="" type="checkbox"/> Fire Protection | <input checked="" type="checkbox"/> Security |
| <input checked="" type="checkbox"/> Solid Waste/Garbage | <input type="checkbox"/> Flood Control | <input type="checkbox"/> Roads |
| <input type="checkbox"/> Participates in joint venture, regional system and or wastewater service
(other than emergency interconnect) | | |
| <input type="checkbox"/> Other (specify): _____ | | |

2. Retail Service Providers:

a. Retail Rates for a 5/8" Meter (or equivalent):

	(1) Minimum Charge	Minimum Usage	Flat Rate Y/N	Rate per 1,000 Gallons Over Minimum	Usage Levels
WATER	\$ 15.00	N/A	N	\$ 4.66 5.60 6.71	0 to 10,000 10,001 to 15,000 15,001 above
WASTEWATER	\$ 10.00	N/A	N	\$ 3.62	0 to Winter Avg.
SURCHARGE	\$ None				

District employs winter averaging for wastewater usage? Yes No

(1) Basic charge for residents age 65 or older is \$11.06 for water and \$10.00 for wastewater.

Total charges per 10,000 gallons usage: Water: \$ 61.60 Wastewater: \$ 46.20
